PROFESSIONAL SUMMARY

Front-End Developer specializing in **React.js** and **Tailwind CSS**, currently completing a B.Sc. in Software Engineering at Homs University. I build responsive, production-ready web apps, from UI design and state management to API integration and deployment, with 5 live projects, including a team platform with role-based access control.

EDUCATION & COURSES

B.Sc. in Software Engineering — Homs University **2022 – Expected 2027**

- Meta Front-End Developer Professional Certificate (Coursera) — In progress
- JavaScript Bootcamp — Elzero Web School
- React.js — Tarmeez Academy

PROJECTS

ZMovie · Movie & TV Discovery Platform Live · Code

Movie and TV discovery platform powered by the TMDB API.

- Developed 7 pages on a structured React architecture, with search, genre, year and rating filters, and pagination.
- Centralized requests in an API layer and a custom useFetch hook handling loading, error and empty states.
- Added trailers, cast and similar titles; secured the API key with environment variables.

Tech: React.js, Tailwind CSS, Axios, MUI, TMDB API

Rennello · Service Workshop Platform · Team of 6

Platform connecting customers with local workshops, with role-based access.

- Owned the homepage, the full registration & login flow, and the customer-side flow.
- Created request-details pages with status tracking (pending, approved, active, complete).
- Implemented the "My Workshop" page for owners, integrating the teammates' Laravel REST API.

Tech: React.js, Redux, Tailwind CSS, MUI, Framer Motion

Archi Carpenter · Business Website Concept Live · Code

Responsive website concept for a carpentry business.

- Delivered 5 routed pages plus a custom 404 page, fully responsive with CSS media queries.
- Added GSAP animations, a Leaflet location map, a contact form, and SEO & Open Graph tags.

Tech: React.js, React Router, CSS, MUI, Leaflet, GSAP

WhatsApp Clone · Chat App UI Clone Live · Code

Chat app with private chats, groups and broadcast messaging, running in the browser.

- Designed and built 10+ screens on a client-side data model: users, per-user chat lists and message threads.
- Implemented group creation and broadcasting; hashed passwords with SHA-256 (Web Crypto API).

Tech: React.js, CSS, MUI, Local Storage

Tech Insight · Tech Articles Blog Live · Code

Responsive tech blog powered by the DEV Community API, with bookmarks, filters and light/dark mode.

- Fetched live articles and full article pages from the DEV Community API, crediting each author.
- Built list and grid views, category filters, pagination and bookmarks with a live counter, using Context API.
- Refactored ~1900 lines of global CSS into per-component CSS Modules with CSS variables for theming.

Tech: React.js, React Router, Context API, CSS Modules, REST API

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), HTML5, CSS3, TypeScript (learning)
- **Frameworks & Libraries:** React.js, Redux, Context API, React Router, Tailwind CSS, CSS Modules, MUI, Framer Motion, GSAP
- **Backend & APIs:** Firebase, REST APIs, Axios, EmailJS
- **Tools:** Git, GitHub, GitHub Actions, Vite, Netlify, VS Code
- **Concepts:** Responsive Design, Component Architecture, State Management, RBAC, SEO & Open Graph
